Mancos Public Library

Building a Community –
Constructing a Library

*Our New Library:
Building a Community –
Constructing a Library*

The Mancos Public Library has been an integral part of our community since its humble beginnings in 1946, evolving into a public institution of tremendous value to our Mancos Valley community. Thanks to the continued support of all of our patrons, the Library's programs, collection, and staff have grown throughout the years, creating the need for a larger library.

The new library building is scheduled to open in the summer of 2009, and will have all the necessities required to begin operations. However, with private donations, we hope to enhance the new library with features that are both within and beyond the scope of the building project and its budget. The Mancos Public Library Building Campaign offers opportunities for you to make a significant gift to the

community you love and for the Mancos Public Library to recognize your generous contributions.

In the following pages you will find a variety of library amenities with price tags ranging from \$250 to \$25,000. We urge you to take this opportunity to help enhance our new library in the heart of Mancos.
